Accessories

Alford Technologies offer a range of accessories to assist in the accurate placement of explosive charges, or to assist in loading. Our accessories form an integral part of EOD kits.

Cable Reel Set

This provides a lightweight system designed for use with a remote firing system or Shock Tube.

Product	Part No.	NATO Stock No. (NSN)
-	CR1010	4933-99-937-0617

Magnet Assembly Set

A set of 10 magnets with Velcro loop attached to one side and used to affix charges to magnetic / ferrous targets. Each magnet is 50mm x 20mm x 8mm
Contents: Pack of 10 magnets

Product	Part No.	NATO Stock No. (NSN)
Pack of 10 magnets	CP0007	1385-99-770-6189

Detcord Loop Booster™

The LoopBooster™ enables the reliable detonation of RDX based sheet explosives and plastic explosives using detcord. It is non-magnetic and supplied in two halves, top and bottom.
Contents: Pack of 20   Part No.: DB1901

Rover Stand™

A stand for the DemiMod™ and MiniMod™ which gives the charge four stable legs. The stand can be rotated 360 degrees to assist with positioning against the target. Breaching Tape™ or Hydro Tape™ can be affixed to the feet to support firm placement.
Contents: 4 stands per pack
NATO Stock No. (NSN): 1375-99-173-1227   Part No.: MM4918

Mod Family Tripod Mount Set

Enables a tripod to be mounted to the Mod family of products for improved positioning with respect to the target.
Contents: 5 per pack   Part No.: CP1901

Breacher's Tape™

A highly tacky adhesive tape which creates an immediate strong bond between the charge and the target. Can be used on the majority of surfaces. Particularly good for dry, clean surfaces or where an extremely aggressively tacky adhesive is needed.

Contents: 1 roll per pack
NATO Stock No. (NSN): 7510-01-619-7791   Part No.: TP1502

HydroTape™

A highly tacky adhesive tape which creates an immediate strong bond between the charge and the target. Can be used on the majority of surfaces. Particularly good for wet, dirty, dusty surfaces. If it is necessary to reposition the charge, the tape will easily lift yet still provide a strong bond upon reattachment.

Product	Part No.
1 roll per pack	HT1015

Plain Detonator Adaptor (PDA)™

The Plain Detonator Adaptor (PDA) crimps into a plain detonator & provides a more reliable way of linking charges & a more secure and waterproof method of attaching the detonating cord. Available in packs of 20 or 1000.

Product	Part No.	NATO Stock No. (NSN)
Pack of 20	DA1020	1375-99-668-6505

Detcord Clip™

Used to connect detonating cord when rigging multiple charges or to clip sections of detcord together. Manufactured from soft plastic. Can be used when wearing gloves. Includes a cleat to secure detonator leads and a clip for joining detcord.

Product	Part No.	NATO Stock No. (NSN)
Pack of 20	DC1020	1375-99-373-0757

Mini Detcord Clip™

Used to connect detonating cord when rigging multiple charges or to clip lengths of detcord together. Manufactured from soft plastic, can be used when wearing gloves. Includes a clip for joining detcord.

Product	Part No.	NATO Stock No. (NSN)
Pack of 20	DC2020	1375-99-789-6461

Detcord Junction Clip™

Used in conjunction with the Mini Detcord Clip™ and Detcord Clip™, the Detcord Clip Junction™ allows the operator to change direction with the detcord in order to rig up multiple charges.

Product	Part No.
Pack of 20	DJ1901

Split Screw™

The Split Screw™, used in conjunction with the Plain Detonator Adaptor (PDA), provides an effective way of securing the detonator into the charge without risk of its becoming loose or falling out.

Product	Part No.
Pack of 20	CP0011

Dummy Detonator Set™

The Dummy Detonator Set™ allows you to set up the charge with a dummy detonator to ensure the explosive can accommodate the real detonator when preparing to fire. Enhances operator safety.

Product	Part No.
Pack of 20	CP0014
